Survey on Political Donations in British Columbia - April 25, 2016

**You said you support limiting how much a single person can donate to a political party or candidate. There are specific regulations in other provinces.**

**In Quebec, for instance, the total contributions that a person may make during a calendar year are limited to \$100 to each political party and each independent candidate. In Canadian federal elections, the total contributions that a person may make during a calendar year are limited to \$1,500 to each political party and each independent candidate.**

**Thinking about this, what should be the annual limit on political donations from individuals to political parties and candidates in British Columbia? Please type your response, in number form, in the box below.**

Survey on Political Donations in British Columbia - April 25, 2016

***In Canadian federal elections, donations from corporations and unions to political parties and candidates are not permitted. Do you think British Columbia should implement similar legislation to ban donations from corporations and unions to provincial political parties before the May 2017 election?***
